COLOR CHART

PERMANENT MAKE-UP PIGMENTS
ARE IN COMPLIANCE WITH THE REACH REGULATIONS (EC 1907/2006)

PIGMENTS FOR LIPS

Rose

The warm color tone of LineS Rose will give the lips that long-awaited rich tone. This pigment is especially suitable for Aquarelle technique.

COLOUR TONE: WARM

Coral

Coral pigment tone is a mix of cold and warm, which will give you steady, yet a perfectly bright result. This pigment is especially suitable for darker lips.

COLOUR TONE: WARM

Chili

LineS Chili will give your lips a perfect touch of red, and for the same reason, it suits best to the Superbright technique.

CORRECTIVE PIGMENTS

Corrector

Corrector pigment is perfect for covering blue and grey tones of old permanent makeup, and neutralizing darker lips. The warm tone of this pigment makes it a perfect mixing match for any cold tone pigment when you want to create a softer look.
